Diabetes Monitoring

This is a list of blood sugar monitors (glucometers) and supplies that are covered by your insurance. If you have diabetes and need to monitor your blood sugar, ask your doctor to prescribe one of these glucometers and supplies. You can receive these covered items at your local pharmacy with a prescription.

As of January 1, 2018, the Accu-Chek® Guide monitor is the preferred formulary blood sugar monitor. Ask your provider to write for this monitor and supplies. If you have an Aviva or Nano meter and would prefer to continue using it, the supplies for both monitors will remain covered for you. When you are ready for a new monitor, the Guide monitor must be used.
